

## Chandelier Lift Specifications and Options

**FREE shipping in U.S. (except AK, HI)**

***Note:*** Lift equipment requires a minimum 3 foot vertical access space clearance above where chandelier is to be installed. If less than this - may require Remote Mount installation option (listed below).

### Standard Lift Equipment

- **Model A200 (max chandelier weight = 200 lbs)**  
(14"W x 19"L x 9"H – install weight = 49 lbs); Standard wattage = 1650W; Standard winch cable length = 35'; Standard wire length (for key switch to equipment) = 50'.  
**Price: \$994 (UL listed)**
- **Model A300 (max chandelier weight = 300 lbs)**  
(14"W x 19"L x 9"H – install weight = 49 lbs); Standard wattage = 1650W; Standard winch cable length = 35'; Standard wire length (for key switch to equipment) = 50'.  
**Price: \$1130 (UL listed)**
- **Model A700 (max chandelier weight = 700 lbs)**  
(18"W x 28"L x 9"H – install weight = 98 lbs); Standard wattage = 2200W; Standard winch cable length = 35'; Standard wire length (for key switch to equipment) = 50'.  
**Price: \$1759 (UL listed)**
- **Model A1000 (max chandelier weight = 1000 lbs)**  
(18"W x 28"L x 9"H – install weight = 110 lbs); Standard wattage = 2200W; Standard winch cable length = 35'; Standard wire length (for key switch to equipment) = 50'.  
**Price: \$2848 (NOT UL listed).**  
**Special order - lead time approx. 4 weeks.**

## Additional Options

**Note: some may be required for your particular installation**

- **Wattage Upgrade (cannot be added after manufacture):** For chandeliers with above standard wattage and/or circuit requirements:
  - 2200W & 1 circuit (standard on A700/A1000): **\$100 upcharge**
  - 3300W & 2 circuits (1650W per circuit; requires separate 'electrical phases' due to 2 hot wires + 1 shared neutral wire): **\$120 upcharge**
- **Increase Keyswitch Wire:** If total wire distance from key switch to equipment is greater than 50'.
  - Increase wire length to 100': **\$50 upcharge**
- **Increase winch cable length (cannot be added after manufacture):** Standard winch cable length is 35': **Call for custom quote**
- **Sloped Ceiling Adapter:** If ceiling is sloped where chandelier is hanging: **\$95 upcharge**
- **Relamping Cord (only fits candelabra base sockets):** Chandelier defaults to "off" when lowered for safety reasons. Option allows chandelier to be lighted when lowered: **\$65 upcharge**
- **Programmable Key Switch (standard on A700/A1000):** The chandelier lift takes approx. 15 minutes to lower (while turning/holding the key). This programmable switch allows you to pre-set the lowering height and not have to stay and turn/hold the key switch while lowering: **\$120 upcharge**
- **Remote Mount Kit (cannot be added after manufacture):** If lift equipment cannot be installed directly over the chandelier - this is required for a side installation. Supplied with 25' of wire and 65' of winch cable: **\$225 upcharge**
- **Directional Pulley(s): (Note: Add'l pulleys cannot be added after manufacture due to required factory prep of cable).** If cable requires any directional changes, one or more pulleys are required - ***fax us a rough sketch and we will determine the number of pulleys:*** **\$95 upcharge/pulley**
